1. Introduction

Welcome to the **FundingRateCoin** whitepaper. **FundingRateCoin** is a revolutionary cryptocurrency designed to provide holders with consistent and substantial returns through a sophisticated long/short trading strategy. This document outlines our vision, technical framework, and the benefits of joining our community.

2. Market Overview

Cryptocurrency markets are highly volatile, presenting both risks and opportunities. Traditional buy-and-hold strategies can be inadequate in such an environment. **FundingRateCoin** leverages advanced trading strategies to capitalize on market movements and deliver consistent profits.

3. Problem Statement

Many cryptocurrencies fail to provide tangible returns to their holders, relying instead on speculative price appreciation. This exposes investors to significant risk without guaranteed income.

4. Solution

Overview of FundingRateCoin

FundingRateCoin is engineered to generate approximately 15% profit per month for its holders through a combination of long and short operations on major exchanges.

Key Features

- **Monthly Profit Sharing:** Holders receive 15% monthly returns based on our trading profits.
- **Automated Trading Strategies:** Leveraging advanced algorithms to execute trades.
- **Transparency and Security:** Detailed performance reports and secure transactions.

Long/Short Operations

Our proprietary trading algorithms execute long and short positions in the same coin on various exchanges with zero risk to exploit funding rates inefficiencies. This dual approach allows us to profit in both rising and falling markets, thereby reducing overall risk and enhancing returns.

5. Technology

FundingRateCoin is built on XRPL, utilizing smart contracts to automate profit distribution and ensure transparency. Our trading strategies are implemented using robust, high-frequency trading algorithms that have been rigorously tested.

6. Tokenomics

Token Distribution

- **Total Supply:** 1.000.000.000 FundingRateCoin tokens
- **Initial Distribution:** All supply is available in the market and started as 1USD per coin.

Profit Sharing Model

Every day the Total Supply available for sale will increase a percentage linked with our daily profit (~15% per month). The holders can sell any time their tokens placing a order below our Total Supply order. After that our bot will buy your order to generate the profit for the holder.

Example:

999.999.999 available to sell at 1USD

Holder buy 1000 \$FRC/USDT at 1USD

After 30 days there will be 999.995.000 available to sell at 1.15USD

Holder place order to sell 1000 \$FRC at 1.14999

Bot buys the order and the Holder now have 1149 USD – Earn 15%

7. Roadmap

Outline the key milestones for FundingRateCoin development and deployment:

- **Q2 2024:** Initial Coin Offering (ICO)
- **Q2 2024:** Launch of trading platform on XRPL (Xaman Wallet)
- **Q3 2024:** Expansion to other trading platform
- **Q4 2024:** Expansion of trading operations

8. Team

Introduce the core team members, highlighting their experience and expertise:

- **Founder/CEO:** Daniel Pinho

Daniel Pinho has been an active and influential participant in the cryptomarket since 2017. His journey began as an investor, where he quickly recognized the transformative potential of cryptocurrencies and blockchain technology. Driven by a passion for innovation and a keen interest in finance, Daniel delved deeper into the market, transitioning from a passive investor to a hands-on developer of automated trading strategies.

Leveraging his extensive knowledge in mathematics and programming, Daniel has developed multiple sophisticated trading bots. These bots are designed to capitalize on market inefficiencies, execute trades with precision, and maximize returns while minimizing risks. His expertise in mathematical modeling and algorithmic programming has enabled him to create highly efficient and effective trading solutions.

In recent years, Daniel has concentrated his efforts on refining a trading strategy that balances reduced risk with high returns, setting it apart from traditional financial investment strategies. This focus has involved rigorous testing, data analysis, and continuous improvement to ensure the strategy's robustness and reliability. His innovative approach not only seeks to outperform traditional financial returns but also to offer a more secure and predictable investment option in the volatile world of cryptocurrencies.

Daniel's commitment to excellence and his relentless pursuit of optimal trading strategies have earned him a reputation as a thought leader in the cryptomarket. His work reflects a deep understanding of both the theoretical and practical aspects of cryptocurrency trading, making him a trusted and respected figure in the industry. With his expertise and vision, Daniel aims to provide investors with a powerful tool to navigate the complexities of the cryptomarket and achieve superior financial outcomes.

9. Legal Disclaimer

The information contained in this whitepaper is for general information purposes only. The contents of this document are not intended to constitute financial, legal, tax, or investment advice, and should not be relied upon in making any investment decision. Potential investors should seek advice from an appropriately qualified professional before making any financial decisions.

Forward-Looking Statements

Certain information set forth in this whitepaper may contain forward-looking statements. These forward-looking statements are based on the belief of FundingRateCoin team, as well as assumptions made by and information currently available to the team. Such forward-looking statements may include, but are not limited to, statements regarding the future development,

performance, and success of the FundingRateCoin project. Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. Actual results and future events could differ materially from those anticipated in such statements.

No Offer or Solicitation

This whitepaper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities or a solicitation for investment in securities in any jurisdiction. FundingRateCoin tokens should not be construed as securities in any jurisdiction. The acquisition of FundingRateCoin tokens is a voluntary act carried out by the user after their own due diligence.

Risk Factors

Investing in cryptocurrencies involves significant risk and may result in the loss of all invested capital. The value of FundingRateCoin tokens can be extremely volatile and may fluctuate based on various factors. Potential risks include, but are not limited to, market risks, technology risks, regulatory risks, and operational risks. It is important to understand these risks and conduct thorough research before investing in FundingRateCoin.

Regulatory Compliance

FundingRateCoin operates in compliance with the applicable laws and regulations of the jurisdictions in which it conducts business. However, regulatory frameworks for blockchain and cryptocurrencies are evolving rapidly and may impact the operation and profitability of FundingRateCoin. FundingRateCoin reserves the right to modify or discontinue its operations to comply with any regulatory requirements.

Limitation of Liability

In no event shall FundingRateCoin, its founders, team members, or affiliates be liable for any direct, indirect, incidental, special, consequential, or exemplary damages arising out of or in connection with the use of or inability to use the FundingRateCoin platform or tokens, including but not limited to, loss of profits, goodwill, or data.

No Guarantees

While FundingRateCoin aims to achieve the goals outlined in this whitepaper, there is no guarantee that these goals will be achieved. The project's success is dependent on a variety of factors, many of which are beyond the control of the FundingRateCoin team.

By acquiring and holding FundingRateCoin tokens, you acknowledge that you have read, understood, and agree to be bound by this legal disclaimer. If you do not agree with or understand this disclaimer, do not acquire or hold FundingRateCoin tokens.

10. Conclusion

FundingRateCoin represents a new paradigm in cryptocurrency investment, merging advanced trading strategies with a commitment to delivering stable and significant returns to its holders. By employing sophisticated long and short trading operations, FundingRateCoin aims to navigate the inherent volatility of the cryptocurrency market and provide a consistent profit-sharing model that sets it apart from traditional financial instruments.

Our innovative approach focuses on capitalizing on both upward and downward market trends, ensuring that opportunities for profit are maximized regardless of market conditions. This dual strategy not only mitigates risk but also enhances the potential for steady returns, aligning with our goal of offering approximately 15% profit per month to our holders.

Transparency and security are at the core of FundingRateCoin. Utilizing blockchain technology and smart contracts, we ensure that all transactions and profit distributions are conducted with the highest level of integrity and trust. Our commitment to transparency is further reflected in our regular performance reports, allowing holders to track their investments and the success of our trading strategies.

The potential of FundingRateCoin is further bolstered by the expertise and dedication of our team. With years of experience in both the cryptocurrency market and financial sectors, our team brings a wealth of knowledge and innovative thinking to the project. This expertise is instrumental in continuously refining our strategies and maintaining a competitive edge in the market.

As we move forward, FundingRateCoin is committed to expanding our capabilities and enhancing our platform. Our roadmap outlines key milestones and future developments aimed at increasing the value and utility of FundingRateCoin, ensuring that our holders benefit from ongoing innovation and market adaptation.

In conclusion, FundingRateCoin is not just another cryptocurrency; it is a carefully crafted financial instrument designed to provide stability, reduce volatility, and deliver substantial monthly profits to its holders. By combining advanced trading techniques with a transparent and secure profit-sharing model, FundingRateCoin offers a unique and attractive investment opportunity in the rapidly evolving world of digital assets. We invite you to join us on this exciting journey and be a part of the future of cryptocurrency investment.
